

VOLTA COHORT

MAY 25, 5:30PM ADT – IN-PERSON
6:00PM ADT – VIA LIVESTREAM
[VOLTAEFFECT.COM/COHORT](https://voltaeffect.com/cohort)

About Volta Cohort

Volta Cohort helps early stage, high calibre founders attract and secure venture capital sooner. The program provides mentorship, resources and investments of \$25,000 through a microfund co-founded by Volta, BDC Capital, Innovacorp and the Atlantic Canada Opportunities Agency. Up to five companies are selected to join the program every six months.

Along with investment, Cohort companies are given space at Volta and access to a board of mentors which includes CEOs and Founders of Volta's Resident and Alumni companies. The board meets with each company every two months and provides support and accountability in meeting agreed upon milestones and metrics.

Between meetings, the companies have access to all relevant programming and support Volta provides. For companies outside of Halifax, support will be arranged with partnering organizations in other cities across Atlantic Canada.

Volta Cohort Finalists

(in order of pitch presentation)

Mompowerment LTD, Inc. is an e-learning platform made specially for mothers. They gather global experts in the field of parenting, deliver information and support the needs of moms in all stages of motherhood.

MotionBed Inc. is developing novel dream enhancement technology, featuring REM sleep detection and stimuli playback that allows users to direct their dreams to realize unique experiences.

dependbuild helps municipalities and infrastructure developers identify, assess, and track their risks with their cloud-based risk management software solution.

iFormit Solutions Inc. is passionate about simplifying smart metering infrastructure using the sub-metering approach to help promote clean utility consumption.

PragmaClin Research Inc. is transforming neurological disease monitoring, by using innovative digital tools to manage movement disorder assessments from home.

Easy Platter

Easy Platter is a platform that connects you with a local chef for your weekly, in-home meal prep.

CANDIDATEHUB

CandidateHub is a recruitment marketing automation platform that allows recruitment teams to capture who is engaging with their content online, and provides personal candidate experiences at scale.

Zipp Cart

Zipp Cart is an innovative grocery delivery service that allows customers to get their items delivered to their doorstep.

spokesfan 

spokesfan is a research tech startup creating an insights platform. They help customer experience teams track word-of-mouth recommendations with real-time digital analytics.

 **CleanBands**

CleanBands is a handwashing compliance system for public-facing workers and the companies they work at. Their business has built systems that make handwashing visible, trackable and marketable.
